ELSEVIER

**Molecular Cell Research**

Vol. 1267, 1995

BBA Biochimica et Biophysica Acta

# Cumulative Contents

## *Regular Section*

## *Regular Papers*

Modulation by GM1 ganglioside of $\beta_1$-adrenergic receptor-induced cyclic AMP formation in Sf9 cells
*M. Saito, T. Frielle, J.L. Benovic and R.W. Ledeen (USA)* 1

Modulated glycosylation of proteoglycans during differentiation of human B lymphocytes
*S. Engelmann, O. Ebeling and R. Schwartz-Albiez (Germany)* 6

Regulation of lysosomal and ubiquitin degradative pathways in differentiating human intestinal Caco-2 cells
*Y. Zhang, D.A. Wick, A.L. Haas, B. Seetharam and N.M. Dahms (USA)* 15

The effects of terbium on the accumulation of cisplatin in human ovarian cancer cells
*R.G. Canada, P.A. Andrews, K.M. Mack and A. Haider (USA)* 25

Selenoperoxidase-dependent glutathione cycle activity in peroxide-challenged leukemia cells
*W. Korytowski, G.J. Bachowski, P.G. Geiger, F. Lin, G. Zhao and A.W. Girotti (USA)* 31

## *Rapid Report*

Reaction of nitric oxide and its derivatives with sulfites: a possible role in sulfite toxicity
*S.B. Harvey and G.L. Nelsestuen (USA)* 41

## *Subsection*

Protein kinase C isoforms in muscle cells and their regulation by phorbol ester and calpain
*D.-h. Hong, J. Huan, B.-r. Ou, J.-y. Yeh, T.C. Saido, P.R. Cheeke and N.E. Forsberg (USA, Japan)* 45

Comparison of the effects of amino acid substitutions and *β-N-* vs. *α-O*-glycosylation on the T-cell stimulatory activity and conformation of an epitope on the rabies virus glycoprotein
*L. Otvos, Jr., G.R. Krivulka, L. Urge, G.I. Szendrei, L. Nagy, Z.Q. Xiang and H.C.J. Ertl (USA)* 55

Development of oxidase 'priming' in maturing HL60 cells: correlation with protein expression and tyrosine phosphorylation
*D. Lloyds and M.B. Hallett (UK)* 65

## *Erratum*

Erratum to "Intracellular degradation of apolipoprotein B generates an N-terminal 70 kDa fragment in the endoplasmic reticulum" [Biochimica et Biophysica Acta 1265 (1995) 29–32]
*S.M. Sallach and K. Adeli (Canada)* 73

## *Regular Section*

## *Regular Papers*

Dose-dependent elevation of cyclic AMP, activation of glycogen phosphorylase, and release of lactate by amylin in rat skeletal muscle
*R. Pittner, K. Beaumont, A. Young and T. Rink (USA)* 75

The GTPase activity of the *Escherichia coli* Ffh protein is important for normal growth
*T. Samuelsson, M. Olsson, P.M. Wikström and B.R. Johansson (Sweden)* 83

Phospholipase $A_2$ activity in dehydrated systems: effect of the physical state of the substrate
*A.E. Oliver, E. Fisk, L.M. Crowe, P.S. De Araujo and J.H. Crowe (USA, Brazil)* 92

Inhibitory action of nm23 proteins on induction of erythroid differentiation of human leukemia cells
*J. Okabe-Kado, T. Kasukabe, H. Baba, T. Urano, H. Shiku and Y. Honma (Japan)* 101

Ornithine decarboxylase: an indicator for growth of NIH 3T3 fibroblasts and their c-Ha-*ras* transformants
*A. Shayovits and U. Bachrach (Israel)* 107

Regulation of the activity of human chymase during storage and release from mast cells: the contributions of inorganic cations, pH, heparin and histamine
*A.R. McEuen, B. Sharma and A.F. Walls (UK)* 115

Utilization of short-chain monocarboxylic acids by the yeast *Torulaspora delbrueckii*: specificity of the transport systems and their regulation
*M. Casal and C. Leão (Portugal)* 122

## Rapid Report

Evidence for stimulation of the inositol triphosphate-$Ca^{2+}$ signalling system in rat enterocytes by heat stable enterotoxin of *Escherichia coli*
*A.G. Chaudhuri and U. Ganguly (India)* 131

## Short Sequence-Paper

Molecular cloning of the complementary DNA for the mouse pyruvate kinase M-2 gene whose expression is dependent upon cell differentiation
*S. Izumi, A. Manabe, A. Tomoyasu, F. Kihara-Negishi and H. Ariga (Japan)* 135

## Subsection

## Regular Papers

Phosphatidylinositol 3-kinase: inhibition of intrinsic protein-serine kinase activity by phosphoinositides, and of lipid kinase activity by $Mn^{2+}$
*V.P.S. Chauhan, S.S. Singh, A. Chauhan and H. Brockerhoff (USA)* 139

Biochemical and pharmacological characterization of periodate-oxidized adenosine analogues at adenosine $A_1$ receptors
*A. Dalpiaz, K. Varani, P.A. Borea, C. Martini, G. Chiellini and A. Lucacchini (Italy)* 145

*Cumulative Contents, Vol. 1267* 153

*Author Index* 155
